

Insurance Coverage for Student Devices

iPads
2021-2022

Every iPad issued by Southern Hancock for students in grades K-8 is covered by insurance purchased by the district with student instructional fees. The cost of this policy is \$10 annually. Below you will find the terms of the school purchased insurance policy:

- This policy does not cover stolen devices, misuse, abuse, or intentional damage. An investigation will be made by building administration to determine the cost of damage.
- This policy is intended to cover catastrophic damage to the computer to protect the student from having to pay for full replacement.
- Habitual damages are not covered under this policy. Insurance is designed to cover no more than **one** major incident.

Examples of common iPad damages:

Damage	Student Cost	Actual Cost
Damaged Case	\$50	\$100
Broken Glass	\$50	\$129
Broken LCD and Glass	\$50	\$239
Liquid Damage	\$50	\$349
Damaged Headphone Jack	\$50	\$59

Families may wish to carry additional insurance to protect the laptop in case damages to the device exceed the district's coverage. You have the option to use your own insurance carrier.

*The actual student and/or replacement cost may fluctuate due to vendor costs.
